

## INTRO

Esteemed industry network,

Our extensive experience in real estate land development, finance and solar development has allowed us to become recognized as an unparalleled leader in the renewable energy field. Enjoy reading about our latest projects, installing solar systems to supply clean renewable green power to over 30 schools and helping New Jersey maintain its reputation as the "Garden State" by providing solar power through utilizing existing rooftops rather than farmland. The time for solar is now.

With sincere regards  
Jim Spano

## BREAKING NEWS: Governor of NJ Signs Historic Clean Energy Bill!

New Jersey's Governor Phil Murphy recently signed a series of historic clean energy bills, one of which was the solar transition bill! This bill was drafted by our solar transition team, comprised of Jim Spano and five other members. We are very excited to have drafted successful legislation, sponsored by Senator Smith.

## Getting to Know Spanno Partners Holdings

We began as a real estate development firm and transitioned into focusing on renewable energy during the real estate crisis. We are an industry expert with more than 250 MW developed. Check out some of our projects [> here](#)

## MEET US @

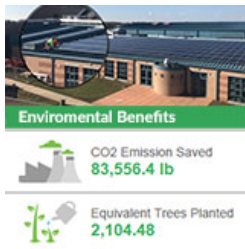

## PAST EVENTS

### INTERSOLAR SUMMIT USA EAST 2018

## Solar Powered Schools

We recently energized the first systems built under the first 1.25 MW contract with Evesham Board of Education in Evesham, NJ. 'These are the first two systems commissioned of a total portfolio of 30 schools in 4 school districts in NJ with a overall power of 10 MW. Click [here](#) for more information.

This year's Intersolar Summit USA East 2018 has been very successful for Spano Partner Holdings. We are glad to have contributed to this great event with such great people!
